Qualités durables & éco-responsables
Sustainable & Eco-Friendly Qualities

Nous accordons un soin particulier au choix de nos matières premières en développant de plus en plus de textile recyclé ou bio dans nos collections ainsi que des fibres moins gourmandes en eau comme le lin ou le chanvre. Nos textiles sont conçus pour résister au temps, lavage après lavage.

We take great care in selecting our row materials, increasingly incorporating recycled or organic textiles into our collections, along with fibers that require less water to produce, such as linen and hemp. Our textiles are designed to stand the test of time, wash after wash.

Choix de procédés non toxiques
Use of Non-Toxic Processes

La certification Oekotex® concerne la majorité de nos gammes. Nos produits sérigraphiés en France utilisent des encres de base aqueuse, sans solvant ni phtalate.

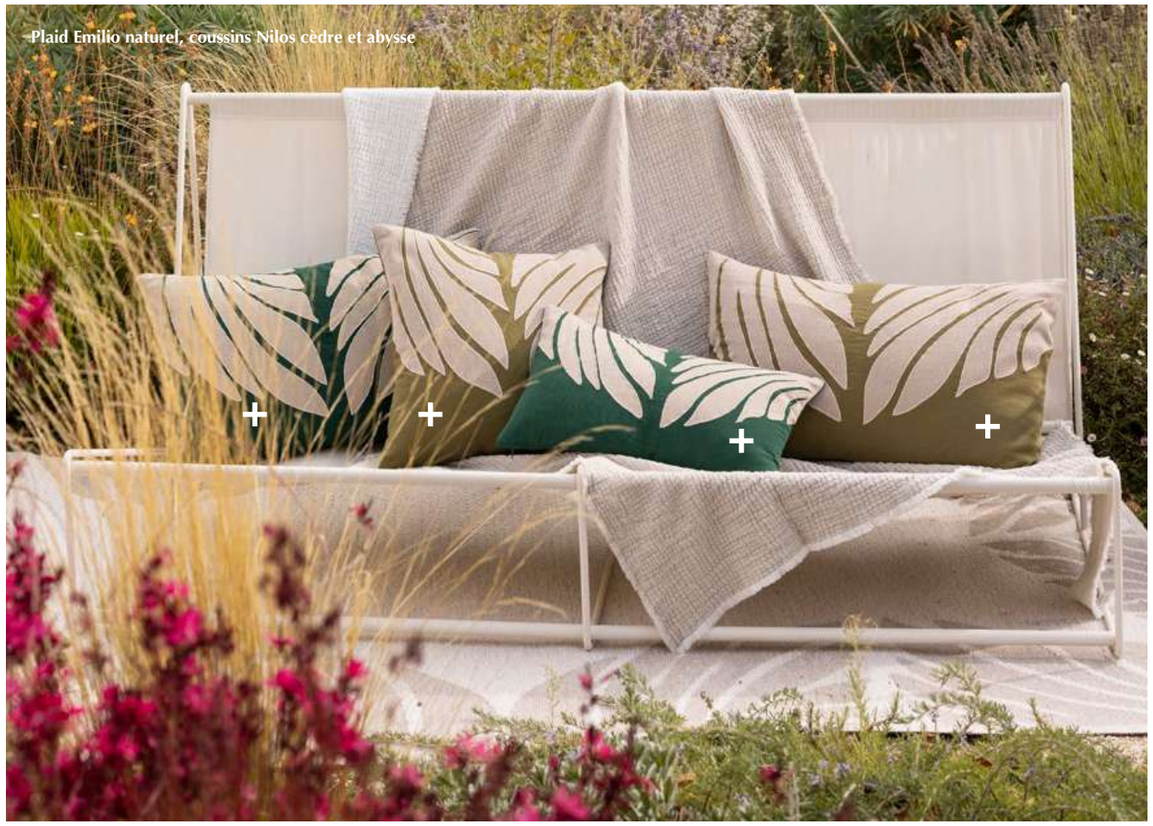

The majority of our collections are Oeko-Tex® certified. Our screen-printed products made in France use water-based inks that are free from solvents and phthalates.

Suppression du plastique
Eliminating Plastic Use

Pour minimiser l'utilisation de ressources, nous supprimons progressivement l'emballage plastique de nos produits et concevons nos packagings durablement.

To reduce our environmental impact, we are gradually removing plastic from our packaging and designing more sustainable alternatives.

Maison Vivaraise minimise son impact environnemental et valorise les circuits courts.

Maison Vivaraise reduces its environmental impact and promotes local supply chains.

Circuits courts
Short Supply Chains

Nous valorisons les savoir-faire locaux à travers nos gammes fabriquées en France et en Europe.
Cette production proche assure un mode d'approvisionnement en temps réel, évite les surstocks et réduit notre empreinte carbone.

We value local expertise through our collections made in France and across Europe. This close-to-home production allows for real-time sourcing, helps prevent overstocking, and reduces our carbon footprint.

Upcycling et artisanat
Upcycling and Craftsmanship

Nous valorisons des stocks de tissus des précédentes collections en fabriquant de nouvelles gammes en petite série.
Nos tapis artisanaux intègrent des matières issues de la récupération de textiles.

We give a second life to leftover fabrics from previous collections by creating new, small-batch lines.
Our handcrafted rugs also incorporate materials made from reclaimed textiles.

Cycle de vie du produit
Product Life Cycle

Nous étudions l'impact environnemental de nos produits, des matières premières jusqu'à la fin de vie, afin de le réduire au maximum.

We assess the environmental impact of our products at every stage from raw materials to end of life with the goal of minimizing it as much as possible.
